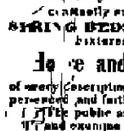
Valuable Invention!

PATENT SELF HEATING

SMOOTHING IRON!



MANY important improvements have been made since the first coming of the present century relieving and facilitating the labor of each by machinery and other labor saving implements, but I may safely say that no article ever yet invented and manufactured of the *Patent Self Heating Smoothing Iron* will relieve them in a very great degree, from the excess to and fatiguing labor so frequently attending the use of the common Irons, besides being a great saving of fuel and expense. This Iron combines economy, convenience, saving of labor, and despatch; one set is worth to its fortunate purchaser fuel for a whole days constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any stove or in the open air. Flatters and Tailors Irons are constructed upon the same principle, and possess equal superiority.

DR. ORDWAY'S

HUMOR DISCOVERY,

—AND—

BLOOD PURIFIER.

DR ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it and know its efficacy to put it within the reach of all.

He has now come to the conclusion to put up *Dr Ordway's California* or Dr Kitty's which contains the most wonderful remedies for

LIVER COMPLAINT, CHRONIC DISEASES &c

The virtues of this Herb were first made known to Dr Kelly by an Indian while attending a patient sick with a chronic disease, the California Erysipelas and Liver Complaint.

The effect was miraculous, curing the patient in a few days.

This patient when taken by the Indian he could not speak without assistance, after using the Herb but a few days he was able to walk about and attend to his business.

Hundreds are taking the same and after trying in vain other remedies and some the best physicians in the country, all of which failed, they have at last found relief in the use of this Herb.

Discovery of the Celebrated Herb

About the first of March in the year 1851, Dr. Kelley sailed from Boston in the ship Swanton for California, and arrived at San Francisco in July following. He soon received public attention by selling the Liver and Lung Syrup of the Indian physician who cured him of the Liver Complaint, and which he found growing in the mountains of California. Here without the aid of a physician, he was taken down with the Liver Complaint, and was reduced to a mere skeleton. He had tried all the remedies he could get, but they did him no good. He was then induced to try the Indian remedy, which he found growing in the mountains. After using it a few days he found relief, and in a few weeks was entirely restored to health. He then commenced preparing it for others, and soon found a ready sale for it. He remained in California about two years, and then returned to Boston, where he introduced it to the public, and found it to be the most wonderful remedy for the cure of

ONLY TWO OF US.

BY MRS. ROBINSON

[Continued.]

"Now we'll commence the last," he added, "and have things go on in regular order. Here goes. Get breakfast, clear table, wash dishes, arrange closets, wipe down shelves, clean the knives, cleanse sink, rub silver, black stove, keep fire, attend to door bell, sweep hall, brush hall, sweep parlors, dining room and kitchen, dust furniture, trim lamps, do chamber work, wash sweet for supper, clean vegetables, stew cranberries, make pudding and entertain visitors if they happen to call."

"Bless me is that all?" cried our housekeeper. "I call that making a great fuss about a little matter. It sounds larger than it really is. I think I'll clear the table to begin with."

So she did so, knocking things helter skelter at a great rate. Then she began to wash the dishes, but she was not long in finding that the task was not as easy as it looked. The dish washing proved rather an awkward affair, and did not progress so rapidly as he expected. He couldn't wipe the cups handle the saucers seemed tangling, and the plates would slip pick in to the water, but after breaking a custard glass tumbler, (which he felt sure of catching the next day,) knocking a large piece out of a platter (which he resolved to paste together while dinner was cooking,) and crashing a pet dish of his wife's, the matter was brought to a close. The knife cleaning was another thing altogether. There wouldn't be any danger of breakages and he could put them through quick. But the black spots were deeper set than he had any idea of. He contended longest with the carving-knife, which in consequence of being awkwardly handled, inflicted a deep cut and a slight token of remembrance. This was a mistake that caused many other mistakes during the day owing to the blood that was upon it.

It was between eight and nine o'clock when he had finished his task, and he was heard carefully and cautiously descending the stairs. He paused frequently, as if to listen, and then proceeded to the clock. He knew well enough that it was time for him to be off, but he thought it would be a good joke to keep her waiting for breakfast.

When he reached the clock he wondered if he should be recognized by any of his numerous "All" customers. Well, I must confess that the coffee which he drank in the morning was not the best that ever was made, and had a very peculiar taste, but he thought it was owing to the fact that he was used to a better article than Mrs. Crosby could afford to keep.

Sweeping, he got over the polish and piece about the operation at once. The stove was a good one and he could work to advantage. The more he did the more it would require, and he soon was in a perfect rage. He checked and tried to quiet himself as well as he could, but it was all in vain.

At this moment the cat, which had been reduced to a skeleton by starvation, came mewing about his feet, and he kicked it across the room with a force that sent it through the window, carrying the sash and glass with it. This was the last straw. He could endure no more. He threw down the broom, and declared that he would not stay another minute. He would go and tell his wife so, and then he would be off.

Just at this moment Mrs. Crosby entered the room, and Tom, in a few words, told her what he had done, and what he intended to do. She looked at him for a moment, and then, with a smile, said:

"Tom, you have been very kind to me, and I am very much obliged to you, but I think you had better go to your office and study your profession."

Tom, who had expected a very different reception, looked astonished, and then, with a sheepish look, said:

"I don't know, Mrs. Crosby, but what I have done is right. I thought you would be glad to get rid of me, and I am sure I have worked hard enough."

"Yes, Tom," replied the patient barrister, "more than enough."

"I beg leave to differ with you sir. Do you see these papers scattered all about here? Pick them up and file them in proper order."

"Where is the squire?" asked Pettifogger with mouth agape.

"I'm squire to day, Tom, and you are my man of business. Mr. Crosby told me that you had a memorandum of to day's work—Produce it if there is such a thing."

Pettifogger fumbled about awhile among the papers, and succeeded in finding the document in question. With the funniest possible smile that a woman could produce, Mrs. Crosby read as follows:

"*James* Habeas corpus for Levi Lewis. A writ of replevin for the distress of Simeon Snooks. Fill out a quitclaim deed for John Styles. Advise Captain Saunders about action for damages against Farmer Jones. A writ of attachment in the case of Brown vs. South—Examine letters respecting Miss Bright's breach of promise case. Send Higgins bill. Write a threatening letter to Thompson. Tervy Doe Bunker if possible. Respectfully invite Col. Dummer to call and settle. Mr. Green's bill. To take depositions in Wiggin's slander case—Get up an issue between Townsend and Perry Distress the Widow Sanburn. Make out costs and damages in case of Folger and Folsom—Examine the title of lands lying north of the Mistletoe river, claimed by Talbot and Tompkins. Kick Bill Buzzleton (firm of Buzzleton & Buggs) out of the office. Browbeat Mrs. Chandler for her landlord Hoggin. Twist Johnson's nose. The above to be done, besides attending to incidental office business as it may occur."

Whig State Convention.

The Whigs of the several cities, towns, and organized plantations in the State of Maine are requested to send delegates to meet in Convention at PORTLAND, on THURSDAY, the 15th of June next, at 10 o'clock A. M., for the purpose of nominating a Candidate for Governor and the transaction of such other business as may be presented.

The basis of representation will be as follows, viz:—Every city, town and organized plantation, will be entitled to one delegate; every city, town, & organized plantation, having 1000 inhabitants, will be entitled to two delegates; those having fifteen hundred inhabitants, to three delegates; those having two thousand inhabitants to four delegates; those having twenty-five hundred inhabitants, to five delegates; and three for every additional thousand inhabitants—the count of 1850 to be the ratio as the basis of representation.

By order of the Whig State Committee.

May 22, 1854.

The Bangor Whig and the Maine Democracy are exceedingly distressed by the passage of the Nebraska bill. These two papers were great admirers of Gen. Taylor, and approved of all he said and all his acts while President. Now, can they point to one justice state more of law in the Nebraska bill than President Zachary Taylor recommended in the country in his 1850 California message to the law for California, and for all the territory ceded to us by Mexico, and which the Northern whig party accepted? In his message about California and the territories, Gen. Taylor said

"Any attempt to deny to the people of the State the right of self government, in a matter which peculiarly affects themselves, will inevitably be regarded by them as an invasion of their rights, and upon the principle laid down in the Declaration of Independence, they will certainly be sustained by the great mass of the American people."

What the Whig journals and politicians approved as sound, Gen. Taylor they condemn in the Democratic party and the administration. [Democrat.

Whig journals and politicians never disagreed, and do not now disagree, with Gen. Taylor or anybody else, as to the right of a State to adopt the institution of its city, if it sees fit to be cursed with it. So whether slaveholders shall be permitted to colonize with new territories with slavery which the free inhabitants are practically prohibited from abolishing, and thus fix the institution in advance upon the future State, which may not then be able to throw it off—is quite another question. The Democrat mosquer ignores the main question in the Nebraska case. Aside from California, the remarks of President Taylor were applied to the then unorganized territories acquired from Mexico, which has never been legislated upon by Congress, in reference to slavery. The Nebraska bill, on the other hand, proposed to reverse a solemn enactment by which slavery had been distinctly *prohibited* within that territory. The issue was, whether the Missouri Compromise should stand—slavery having received and enjoyed its moiety thereof—or whether it should be repealed and the general right of Congress to prohibit slavery in the territories denied. The Whig journals and politicians contended for the right, and for its continued exercise—denouncing papers which side with the Benton Democracy, practically and theoretically deny the right. Upon this issue, we are ready to defend our Whig consistency, and to take the sense of the people.

A COLLISION BETWEEN THE ASSIRIA. The New York National Democrat, formerly a rampant defender of the South, and a supporter of Mr. Pierce, now buckles to the Protest for his appointments, and tells the slaveholders they may "skin their own skunks" in future. Thus:

When traitors, in arms against the constitutional rights of the South are rewarded, President, and tardily encouraged, what wonder is it that an early moment they organize to resist a law unpalatable to them? The South may learn a lesson from the Boston case, of interest to it. It has coolly stood by, and seen the garrison of the North ostracized, and the enemy's enemies rewarded. Now it will aid no true friend. Many men who have perilled all for Southern interests in the past, now feel like casting off their ungrateful betrayers, 'Catch your own negroes—skin your own skunks.'

This is the doctrine that the true friends of the Union have always been contending for. *Let* them skin their skunks—of all descriptions. If the slaveholders got no aid at the North their schemes of conquest and slavery extension would very quietly collapse.

OUR RELATIONS WITH SPAIN. The Washington Star alludes to the fact that a special commissioner to the Court of Madrid is talked of, and says "we have good reason for believing that the announcement of the names of two distinguished statesmen in connection with this Commission, has more substantial foundation than mere rumor."

The Washington correspondent of the Journal of Commerce says:

"The new Spanish Minister present his credentials to-day. The story that a special commission is to be sent to Spain for the purchase of Cuba, or for its already acquisition by force, has obtained much credence here.

The message was adopted on Friday last, it is said, as an alternative to the immediate blockade of the ports of Cuba, which the President had prepared and which three of the Cabinet had agreed to.

An offer of three hundred millions for the purchase of the island is to be made, but not until some threats shall be thrown out, of its forcible seizure."

The alarm of fire on Saturday morning at 5 o'clock, was from the tailor's shop of J. P. Hooper, in Bowman's Block, on Kenduskeag Bridge. The floor of the room took fire under the furnace. Timely discovery being made by Mr. Smith of the Reading Room, the fire was extinguished without material damage.

The Pendleton house, on the corner of State and Brown Sts. also took fire in the afternoon, but was fortunately extinguished without calling upon the department.

DANIEL A MODEL FOR YOUNG MEN. A Series of Lectures by Rev. W. A. Scott, D. D., of New Orleans. New York: Robt. Carter & Brothers, 1854.

This is a series of lectures—embraced in a well printed volume of 240 octavo pages—addressed particularly to young men residing in cities, who are necessarily exposed to great and peculiar temptations, and who stand in especial need of a faithful warning voice. The character of Daniel, in its strict integrity—its stern resistance to the seductions of place and pleasure, as well as to the threatenings of power—is held up as a fitting model for the young men of this generation, and as an incentive to commence early a faithful Christian life. It is a book calculated to do us all good.

SINGULAR ACCIDENT. At Brown's Corner, in Northport, the telegraph wire became detached from a post at a point where it crossed the road, and hung so low that it came in contact with the mail stage from Belfast to Rockland on Tuesday afternoon. The force of the collision was such as to overturn the coach, damaging it considerably, and injuring two lady passengers.

Resolutions

Passed by the Public Meeting at the City Hall on Friday evening.

[Reported by Mr. Ingersoll.]

Resolved, That we regard the repeal of the Missouri Compromise, in the passage of the Nebraska-Kansas bill by the present Congress, as a great breach of the public faith, and a violation of one of the fundamental principles upon which our government rests.

Resolved, That we have ever seen the standard of Religion to that portion of the bill which abrogates the Missouri Compromise as to Slavery in the Territories, and will never cease our efforts to effect it, so long as any hope of success remains.

Resolved, That the doctrine of "nonintervention by Congress in the Territories of the United States, is a political heresy, which ignores one of the express provisions of the Constitution, and is at variance with the whole action of the Federal Government from 1789 to the present time—and the insincerity of the pretence that this doctrine recognizes the rights of popular sovereignty is most glaringly exhibited in the refusal of the majority to adopt, in the Nebraska bill, the amendment of the Hon. T. J. D. Fuller of this State, which provided for the right of the Territorial Legislature, chosen by the people, to prohibit or establish Slavery in the Territory, as to them should seem proper.

Resolved, That we believe Congress has full power to prohibit Slavery in all the Territories of the United States, and make "rules and regulations for the same;" that there is a sovereign power in the Government over all the Territory acquired since the adoption of the Constitution, and also a authority by an express provision in that instrument. And that "non-intervention" is a mockery in political conjurations to meet the necessities of a political aspirant for the Presidency.

Resolved, That in view of the acts of the present Congress, the people of the free States of the Union are absolved from all obligations to maintain the Slavery compromises; that it is now only a question of power between slavery and freedom, and which has been of late wantonly encroached—and that we will act steadily and perseveringly, until slavery shall be prohibited by acts additional to the Territories of New Mexico and Utah, and until the fugitive slave law is either repealed, or so modified, as to prevent the trial by jury and the writ of *habeas corpus*.

Resolved, That it is with disappointment and disgust that we have seen the President of the United States stoop from the high position to which he had been raised by a free people, and go into the political arena of congressional contests, to aid in violating a solemn compact between the North and South, and this too, with the whole patronage of the Government, and fan the flame of *agitation on slavery in violation of his express declaration* in his inaugural address, and his first message to Congress.

Resolved, That we tender our thanks to the Hon. Josiah Wash burn, Jr., for the able, manful and resolute resistance to that nefarious scheme which he has made on the floor of the National house of Representatives.

Voted, That a copy of the Resolutions and doings of the meeting be forwarded to the Senators and representatives of this state in Congress.

The Mercury Saturday evening has a report of Gov KENT's remarks, from which we extract the following:

The present has considered a crisis of the country, brought on Southern statesmen and corrupt Northern politic us. He was always considered a moderate man— it easily carried away by popular excitement. H ould sacrifice much rather than inaugurate a sec nal party. But we are now driven to the wall, and we are obliged to resist. The point has been reached when forbearance ceased to be a virtue. All good men should be found acting together for the storation of what Freedom has lost. He remembered the days of the Missouri Compromise. It was wrung from the South with reluctance. The motto was then, no more slave States. Now it is, 'Hands off—of slavery go wherever it lists.' The Compromise was carried by three votes, and Randolph said, 'We found three northern d gh-faces to help us, and if we had wanted thirty we could have had them.'

When, said the speaker, he left Iowa more than four years ago, it rank the North Star, and made his home in a land of Slavery. For four years that star was lost to his vision. His work, not dead, the influences of the institution of Slavery in the land of his sojourn. On his return he watched for the rising of the star—the beacon sentinel of liberty—and when gladdened his eyes, he felt he was again at home in the land of New England liberty. While that star remains in the firmament, the exposure of Freedom, let the land of the Pilgrims and their descendants be true to the great and eternal principle which has blessed and made it prosperous and happy beyond all other lands.

Great applause followed Mr. Kent's close.

Trouble at the Falkland Islands. Intelligence from the Falkland Islands states that the U. S. sloop Germantown, had demanded from H. B. The detention of the Express refused to deliver them up, and the captain of the Germantown made an imperious demand for them, with a threat that, if not complied with, he would fire into the Express, and if best to quarters and run his guns out. The captain of the Express however maintained his position, and delivered up his prisoners to the civil authorities, by whom they were fined. The affair is stated to have occasioned some warm correspondence between the U. S. and British authorities, which has been forwarded to their respective governments.

THE GREAT EXPLOSION. We have some further particulars of the explosion of about five tons of powder, at Wilmington, on Wednesday, although not full details. The powder was being carried through the streets, contrary to law, on four wagons, and the cause of the explosion is said to be friction. There were two distinct explosions, and the force of both was tremendous. Trees were stripped of their branches, and the ground was carpeted with leaves. A portion of the tire of one of the wagon wheels, was found nearly a mile from the spot. Windows in all parts of the city were broken, walls were shaken, and many persons fainted from fright. One of the dray horses, with the exception of one of his legs, was blown entirely out of his skin, which was found on the ground near the spot where the explosion took place. Windows were broken at the distance of a mile and a half, and from the crown of the hill down to the Brandywine, there is not a window or front door left unbroken. The windows all over the city and suburbs are less broken, and in many houses the plaster was blown down from the walls and ceiling. Persons in the street were driven along by the concussion before they had any idea what had happened.

THE METHODIST CHURCH SOUTH. One of the most important actions, as yet, of the conference of this body, which is now being held in Charleston, S. C., has been that having reference to the alteration of the "discipline" in relation to the subject of slavery. The Charleston Courier says that the ninth section of the "discipline" was expunged, as well as all other parts which condemned the institution of slavery. The general rule forbidding "the purchase of men, women, and children, with the intention to enslave them," and which has reference to the African slave trade, was retained, though the vote upon the expugnation even of this rule, was 47 to 54.

—ON—

MONDAY EVENING, June 5,

—FOR—

THREE NIGHTS ONLY!

He takes great pleasure in stating that he has procured, at an immense cost, the Gorgeous Scene of

Spanish Bull Fight,

painted by the *Native Artist HIMSELF.* It vividly portrays this favorite sport of the Cubans, and is one of the most life-like and animated scenes ever depicted on canvass. The

Fairies' Grotto

will also be exhibited. This is a scene of magic and admirably splendor, wild as the creations of a poet's fancy and beautiful as the lost dreams of your youth. An engagement has been effected with

Miss E. B. SOMERBY,

the celebrated *Contralto Singer* of Boston, whose successful debut in New York created such a stir among the musical critics of that city. In connection with

Mr. ISABELLA MERRILL

who will sing Comic Vocal and Instrumental *Concert Singer.* Mr. Merrill will introduce at each exhibition his renowned

Ethiopian Family,

in their wonderful performances, representing aquatic natures in such a life-like manner as to completely amaze and astonish the beholder, making the most highly artistic, intellectual, and interesting entertainment ever offered for your consideration.

☞ On WEDNESDAY AFTERNOON an Entertainment will be given for Ladies and Children. Doors open at 7—commence at 8 o'clock.

TELEGRAPH.

TO THE DAILY WHIG AND COURIER.

Anti-Nebraska Movements.

WASHINGTON, June 3.

A telegraphic despatch to the New York Courier and Enquirer, says that a meeting of Northern anti-Nebraska Members of Congress, was held to-day, and resolutions were adopted to oppose all appropriations not indispensable to the current service, and to adjourn without them, at the earliest possible day.

Exultation of the Fugitive Law Men.

The friends of the Nebraska bill are in high exultation at the result in Boston. They boast that the bill was passed, and the fugitive slave act enforced in New York and Boston, the same day.

Sandwich Islands to be Annexed.

The *Times'* correspondent telegraphs that the recent rumors relative to the contemplated annexation of the Sandwich Islands, are fully confirmed by additional and positive information that negotiations have been industriously pushed forward for some time past, and a treaty of annexation is expected by the President on the next dispatch from Hawaii.

The Fillibusters Moving.

NEW YORK, June 3.

The Washington correspondent of the Courier, writes as follows:

The muster rolls of the organization for the invasion of Cuba, show a list of 6 hundred men twelve thousand strong. It is supposed that 10 per cent. of the number is available for immediate service. The subscriptions to the fund amount to $1,000,000, but a small part has as yet been collected. Assessments are made upon the subscription, by a junto or committee of the Executive officers of the Lone Star Association. In return for payments, stock is issued, redeemable after the conquest of Cuba, and signed by the President, Secretary, and Treasurer of the Association.

Gen. Quitman stands at the head of their military organization.

Steamship Ashore.

PHILADELPHIA, June 3.

Steamship City of Manchester, which left for Liverpool this morning, went ashore at Windmill Island, opposite this city, but will probably come off this evening, at high tide.

NEW YORK MARKETS.

Saturday, June 3.

Important Bargains Offered.

LOTS of Land on Broad Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French St. and Broadway, and on street laid out, 72 feet wide, in the range with Broadway, (as it runs from State Street to the Park.) This street is laid out about 160 rods through my lands, extending over the west end of Mt. Pleasant. This land is north of and much higher than the Park, having a commanding view of the city and surrounding country.

Also, land for Orcharding and Farming, on the new Stage Road to Oldtown running by Coombs Mills, situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live, where I have raised over 40 bushels of wheat to the acre, (as may be seen on the books of the P. S. Society,) and corn, hay and potatoes in that proportion. Several improvements may be formed also of my land for Fruit Trees on my lot near the city, by examining my farm, trees and our Fruit Nurseries.

Ely and East of the Mills has a considerable growth of wood on it, and some timber for frames. We run 20 three teams a day, it being one of the best roads running out of Bangor.

Liberal terms will be given on it, and the size of the lots made to suit purchasers.

Waterville, April 7, 1854

KENNEDY'S

The Greatest of the Age!

M KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. It has tried it in over eleven hundred cases and never failed except in two. He has now in his possession over two hundred certificates of these cures, all within twenty miles of Boston

Two bottles are warranted to cure the worst kind of pimples on the face

Two to three bottles will cure the worst case of blotches

Two bottles are warranted to cure the worst case of tetter

Three to five bottles are warranted to cure the worst case of ringworm

One to three bottles will cure any case of scald head

Two bottles are warranted to cure the worst case of dyspepsia

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure ringworm in the ears and blotches in the hair

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure any eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure saltrheum

Five to eight bottles will cure the very worst case of Scrofula

A benefit is always experienced from the first bottle and a perfect cure warranted when the above quantity is taken.

Nothing looks so unpleasable to those who have no value for all the wonderful medicines of the day as that a common weed, growing upon the pastures, and along old stone walls, should cure every manner of humor in the system as I have stated—If you have any humor it behoves you to call at once and learn about it, saving some cases, but not yours. He has recently over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and deafness. Some who have taken it have been costive for years and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very angular feelings but you must not be alarmed—they always disappear in from four days to a week. There never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person. I heard some of the most extraordinary accounts of it that ever man listened to

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

THIS valuable medicine which has received the sanction of the medical faculty by whom it is regularly prescribed, and which has been tested successfully by thousands of invalids is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION SCROFULA, COUGHS COLDS, ASTHMA, BRONCHITIS SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for a cure of Consumption and kindred diseases, yet discovered while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing In cases where ulceration has taken place on the lungs, the acid of lime has been found by the most careful tests to supply the very ingredients necessary for the formation of cells and the complete healing of this delicate part of the human system

The preparation of the pure Cod Liver Oil and Lime robs the oil of every nauseating taste which renders it so repulsive, particularly to invalids—The strength & proportion of the Phosphate of Lime with the Oil has only been accomplished by the exertion of the most perfect rules of chemistry, and a medicine has thereby been produced which is of inestimable value as a remedy like our own.

A long array of certificates might be given here to prove the effectiveness equivalent to this medicine but it is not deemed necessary The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr CURTIS for the cure of Asthma Consumption Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation Dr CURTIS'S HYGEIANA or INHALING HYGEAN VAPOR and CHERRY SYRUP has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past ever known to man It is producing an impression on diseases of the lungs never before witnessed by the medical profession [See certificates in hands of Agents]

The Inhaler is worn on the breast, under the linen with not the least inconvenience the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor passing into all the air cells and passages of the lungs, that cannot possibly be reached by any other medicine there is a case of

ASTHMA CURED.

BROOKLYN N Y Dec 20 1853

For about eight years I have been severely afflicted with the Asthma for the last two years I have suffered beyond all my powers of description, months at a time I have not been able to sleep in a bed getting what rest I could sitting in my chair My difficulty of breathing and my sufferings, were so great at times that for hours together new friends expected each hour would be my last During the past six years I have had the skill and attendance of not only the most celebrated physicians, but have received no permanent benefit, and but little relief Last June I had the good fortune to procure Dr Curtis's Hygeian Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks and was in great distress almost suffocating for want of breath In less than ten minutes from the time I applied the Inhaler to my stomach and took a teaspoonful of the Cherry Syrup I was relieved and a comfortable night I have since continued it with the greatest possible benefit and am now comparatively well God only knows the amount of suffering this most efficacious remedy has relieved me from Advice to the suffering sent free

CONSUMPTION CURED.

NEW YORK Dec 27th 1853

I came to New York on the day Telegraph, my native place Not [illegible] New Brunswick, when in which time my own health was very poor before had cough which I brought a good deal of matter, which was frequently mixed with blood Had pain in my left side and parts were weak and emaciated My friends and physician pronounced my case Consumption and I became the victim of medicine and all remedies recommended Dr Curtis's Hygeian, or Inhaling Hygean Vapor and Cherry Syrup and obtained at Gage, which I gently believe was the means of saving my life Soon after using the Inhaler I found it relieved the pressure on my lungs and after a while the disease made its appearance upon the surface under the Inhaler I took the Cherry Syrup as directed and continued to do so my cough is gradually growing better in fact entirely left me and I now consider myself perfectly well under the influence of the Inhaler rather pleasant and relieving it in breathing and purifying the lungs I feel now think myself free entirely from disease and able to do a hearty day's work without the Inhaler I am 21 years of age

Dr. Morse's Invigorating Elixer, or Cordial.

of centuries Medicine, after long research, the vegetable and mineral kingdoms of nature has produced something that should restore the health of the sick, and prolong the life of man. Many of the diseases of the nervous and intestinal system, with the drawbacks of such complaints upon the whole of the human species and manifest all important evils. *That something has been found*, [illegible] vegetable production brought from the sterile deserts of Arabia the Stony, by the celebrated Doctor Morse with his unrivalled Cordial, compounded these pills expressly to all nervous chronic habits, constitutions and more or less, tending to establish itself among the [illegible] which I have now done, by causing them to be introduced in the principal cities of the United States, and in the Provinces of New York

PURIFICATION OF THE BLOOD,

AND

LIVER AND BILIOUS COMPLAINTS

These pills, which are offered to the public as a remedy for dyspepsia, indigestion, biliousness, jaundice, dizziness, nervousness, low spirits, loss of appetite, headache, pain in the side, back, and limbs, fevers, inflammation of the bowels, piles, and all derangements of the internal viscera, in short, they are the best and safest purgative medicine in the world, and are warranted to contain no mercury, or any other injurious drug. Every person can be their own physician, and thereby save large doctors' bills, and prevent sickness by timely using these pills, which will keep the blood pure, and the whole system in perfect order, and secure to the body a healthy action of all the organs of digestion, and consequently the only true way to prolong life. Let the trial be made by any one afflicted, and the pills will speak for themselves. Many certificates could be published, but the proprietor deems it unnecessary, as he is willing that the pills should stand upon their own merits, and he is sure that a fair trial will prove them to be the best pill ever used in a family, and the cheapest medicine ever offered to the public, as they are a universal remedy for all diseases arising from an impure state of the blood, or a disordered stomach or liver. For sale by all druggists throughout the United States, Canada, and the British Provinces, and by the proprietor, at 244 Strand, London, at 80 cents, $1, and $5 per box, or pot. LOSS OF MEMORY.

Confirmed nervousness, loss of memory, universal debility, hysteria, want of energy, hypochondriasis, dyspepsia, general prostration, irritability, inability to sleep, and many nervous affections arising from a disordered state of the stomach, are the prevailing diseases of the present day. Such a result may be reasonably expected if the use of deleterious compounds, under the name of medicine, be continued. Let the afflicted, therefore, beware of quacks, and apply to those only who have made the nervous system their study, and whose practice has been crowned with success. Such a one is the author of this notice, who, after many years' study and experience, has succeeded in producing a remedy which will restore the most shattered nervous system to its original tone and vigor. Let the nervous and debilitated apply, and be convinced that there is hope. Let the despairing and those who have been given up by their physicians, try this remedy, and be restored to health and happiness.

Sold by druggists generally. Price $1 per bottle, or six bottles for $5. Sent by express to any part of the country, on receipt of the money, by addressing DR. J. BRADTHAUPT, No. 152 Fulton street, New York.

A GREAT MEDICINE FOR FEMALES.

Their paralleled effects of this great restorative in all complaints incident to females render it a new era in the annals of medicine Thousands of testimonials have been received—the sounds of invalids connected—supporting the well known fact that the following diseases are to which the delicate female organization is subject, are speedily and permanently cured by the use of these pills. The general health is also greatly improved from their use in the nervous system, and the whole constitution is built up and invigorated by their use. Females of delicate habits, who are subject to fainting turns, should use these pills. They will be found to relieve the most distressing symptoms attendant upon the female system, and will restore the patient to health and happiness.

EVERY WOMAN OF SENSE,

knows that a common weakness, derangement, nervousness or irregularity of the female system, is generally the forerunner of some more dangerous disease, and should be checked in time. Common colds, coughs, &c., are often the result of neglect in females, and if not attended to, will run into consumption, and terminate in the grave. Holloway's Pills are unrivalled in the cure of all complaints incident to females, and will be found to relieve the most distressing symptoms at once.

MARRIED PERSONS,

or those contemplating marriage, should be aware of the fact that many females are rendered barren by some slight derangement of the system. In such cases these pills should be taken, as they will remove any obstruction, and restore the patient to health.

BEFORE CONTEMPLATING MARRIAGE,

both parties should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage, the prospect is dreary, and the mind becomes shadowed with despair, and filled with the most horrible reflections, that the happiness of another is cut short through your own indiscretion. Therefore, before marriage, both parties should use Holloway's Pills, and be restored to health and vigor.

PARENTS AND GUARDIANS

are often afflicted with respect to the causes and source of disease in their sons and wards. How often do they ascribe to other causes the blighting of the fairest prospects, manliness, inspiration of the heart, indigestion, derangement of the nervous system, cough and symptoms subsequent on consumption, when the truth is, that they have been sapping it by pernicious, though alluring practices, destructive both to mind and body.

CAUTION.

As Messrs. Perkins and Company, Canada, has been counterfeited by some unprincipled persons.

AYER'S

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, AND CONSUMPTION.

WE invite the attention of the public to the Certificates appended below, and respectfully ask of them that candid consideration which their honest frankness deserves.

Men in such stations as many who voluntarily bear witness to the efficacy and value of Cherry Pectoral do not wantonly trifle with or distort facts merely to subserve their own interests. Duty to their fellow men would prevent them, if they were disposed to do so. Their reputations are at stake, and they know that they will be held responsible for the truth of what they say. Under these circumstances, we feel that we may confidently appeal to the whole people of the United States, and ask them to give our remedies such a trial as they may think they deserve. We are not willing to ask for more.
